Alerts. Provide contextual feedback messages for typical user actions with the handful of available and flexible alert messages. Examples. Alerts are available for any length of text, as well as an optional dismiss button. Settlement in Ukraine by members of the genus Homo has been documented into distant prehistory. The Neanderthals are associated with the Molodova archaeological sites (43,000-45,000 BC) which include a mammoth bone dwelling. Gravettian settlements dating to 32,000 BC have been unearthed and studied in the Buran-Kaya cave site of the Crimean Mountains. ...Color of the url. It really might not be seen at a glance but the font colour itself is actually following this color design as well-- just the colours are much much darker so get intuitively taken dark however it's not exactly so.. Same works not only for the alert text message itself but even for the links incorporated in it-- there are link classes removing the outline and painting the ...I have updated plunker created by @daydreamer to show multiple alerts and hide automatically. If anybody wants to customized multiple alerts have a look at this Plunker Link. Half of the code same as @DerekR, I have only made customization to it
