

# Download Coordinates Treasure Map Year 3

The lesson plan is self explanatory - additional resources needed are 'coins' - basically a handful of coordinates. I did this as an interview lesson so put a lot of time in the resources (had gold coins in coin bags) but it needn't be that fussy. Co-ordinates game where children hide treasure in the coordinate grid (1 or all 4 quadrants depending on yr group and ability) by adding small pictures to the map. Shiver me timbers! Players lead a quest for buried treasure in this silly geometry game. Kids must follow clues to plot (x, y) coordinates on a treasure map, to lead them around the island before landing on the pirate booty. Use these differentiated worksheets to help your children develop their understanding of reading, writing and plotting coordinates in the first quadrant.
