

# Download Principles For The Selection Of Doses In Chronic Rodent Bioassays

INTERNATIONAL PROGRAMME ON CHEMICAL SAFETY ENVIRONMENTAL HEALTH CRITERIA 6 PRINCIPLES AND METHODS FOR EVALUATING THE TOXICITY OF CHEMICALS PART I This report contains the collective views of an international group of experts and does not necessarily represent the decisions or the stated policy of the United Nations Environment Programme, the International Labour Organisation, or the World ...1. Introduction. The inclusion of information concerning the mode of action (MoA) for rodent tumor formation in the data package for crop protection active substances submitted for registration or re-registration to regulatory authorities is becoming more frequent.Suggested Citation:"4 METHODS FOR TOXICITY TESTING."National Research Council. 1993. Pesticides in the Diets of Infants and Children.Washington, DC: The National Academies Press. doi: 10.17226/2126.Introduction. The use of mAbs as therapeutics has provided patients with targeted and effective medicines to treat numerous diseases. Currently 31 mAbs are approved by the US FDA, and five of these mAbs, infliximab (Remicade), rituximab (Rituxan), trastuzumab (Herceptin), bevacizumab (Avastin), and adalimumab (Humira), generated sales of over \$4 billion in 2008, and global sales for the entire ...
